

Useful information

Southern Federal University is the largest university in the south of Russia, in the region famous for multiculturalism and hospitality for guests. The University is unique for its location. Most faculties and institutes of SfedU are in the city of Rostov-on-Don, which is a beautiful and rich in traditions, the largest industrial and cultural center on the banks of the picturesque river Don, the capital of Don region. SfedU engineering faculties are located in the city of Taganrog, which is located in the Taganrog Bay.

Rostov-on-Don is the regional center, and the Don Territory is a large Russian region in which the Don Cossacks have long lived. The Cossack region is famous for its distinctive culture. Its history is exceptionally interesting. Don region is the birthplace of the great Russian writers A.P. Chekhov and M.A. Sholokhov.

Climate. The climate in Rostov-on-Don and Taganrog is temperate continental. We have many parks that not only decorate the city, but also reduce the wind. Winters are mild, unstable with frequently recurring thaws and ice-crusting ground. Spring is early in the city. July is the hottest month (up to + 38 C). In the middle of October begins the heating season. By the end of November, the first snow falls.

Additional expenses: medical insurance (5500 rubles per year), food (from 7000 rubles per month), mobile connection (from 300 rubles per month), public transport (from 1000 rubles per month).
